MAKES MORE BREAD

Gluten absorbs much more water in bread-making than the starchy part of Flour. A quart of

HOLLY FLOUR

will make much more dough than any other flour because it contains more gluten. For this reason Bakeries always use HOLLY FLOUR.

Among the Democrats there does not seem to be much doubt as to whom the County committee will select to fill these places on the ticket. As a matter of fact, every Democrat who was asked about the matter suggested the same persons as being the probable candidates to be selected. The nature of these candidates show a decided leaning towards the so-call ed Republican labor party, of which W. C. Achi is the parent, as well as towards the Home Rulers, suggesting that the talk about fusion was not en-

Times from Yokohama, says: The competition for the trade of the Pacific between the various steamship companies is exciting lively interest in Japan and Chira, Shipping men here are positive in their belief that the Japanese companies will force them companies out of business. It is definitely understood that since the failure of the shipping subsidy bill in America, the Toyo Yusen Kaisha Company will buy out the Pacific Mall Company. Its fleet consists of the Mongolia, Manchuria, Korea, Siberia and China, all fine steamers, 10,000 to 15,000 to non burden.

The sale of the Pacific Mail steamers will mean practically the disappearance of the American flag from the China seas. There will still be J. J. Hill's two steamers, the Dakota and the Minnesota, trading to Scattle. It is uncertain how long before the Japanese purchase these steamers also.

Practically the whole of the intercoast trade of China and Japan is in the hands of the Japanese.
